

Design a residential dwelling in 3D which features Vantage ThermalHEART products for your chance to win a suite of Revit Architecture valued at \$9500!

AWS STUDENT DESIGN COMPETITION

For more information please contact Mike Ross or Murray Chaloner on **02 8783 7611**, Or email us at:- [techsupport@awsaustralia.com.au](mailto:techsupport@awsaustralia.com.au)

**The Architectural Window Systems Student design competition is open to all student Architects and designers within Australia. To enter the competition you must Design in 3D CAD a residential dwelling which features Vantage ThermalHEART™ products**

**1 - When are submissions being accepted?**

Between April 1, 2009 and June 30, 2009. June 30, 2009 is the closing date for complete submissions.

**2 - What do you need to do?**

The contestant must design a residential three room dwelling under 200m<sup>2</sup> utilising the Vantage Designer Series products that include ThermalHEART™ Technology.

The model must be constructed in Revit Architecture 3d.

Download the ThermalHEART™ Revit 3D models from the Vantage website student competition page [www.vantagealuminium.com.au/studentcomp](http://www.vantagealuminium.com.au/studentcomp) for use in your model

**3 - How are entries made?**

Entries should be submitted via email to:-

[techsupport@awsaustralia.com.au](mailto:techsupport@awsaustralia.com.au) to be eligible entries must include a plan and window schedule and be accompanied by a competition entry form.

**4 - What are we looking for?**

We simply want to see a creative use of ThermalHEART™ products

**5 -The prize**

The winner will receive a licensed copy of “Revit Architecture” an innovative suite of 3D modeling software from Autodesk
